Cloud Accountants

Loyalty Programme FY25.

Sage is committed to every Accountant’s success and investing in the supporting resources for practices to achieve growth goals.

By working together, we can maximise our level of mutual success, and create wins for your clients, your practice and Sage.

Today’s progressive Accountants are offering their clients so much more than monthly financial statements and tax returns. Cloud technology enables Accountants to elevate their services from basic transactional work to high-value, full-scale outsourced accounting.

Sage recognises the need for practices to transform with cloud technologies and the Sage Accountants Loyalty Programme has been designed to reward those who display their commitment to Sage and its cloud offerings.

The rewards include free licences and discounts to Sage software and best-of-breed cloud technology to support your practice, participation in exclusive events, access to specialists to support you and your practice and much more.
